To Whom It May Concern:

This is a letter of recommendation for Bobby Cross. Bobby was my student teacher in my fifth grade classroom from February through April 2015. I found Bobby to be extremely competent and committed during his student teaching experience.

Bobby is very detailed oriented and has a strong work ethic. Upon starting his student teaching experience, he communicated to me all the assignments he was required to complete during his experience with me.

Bobby worked with a small group of students that were ELD. The children looked forward to working with Bobby. He was effective in reaching these students. He also worked with a struggling reader. He did an intense study working with this student looking for the student's strengths, weaknesses, and coming up with appropriate strategies for the student.

During Bobby's time in the fifth grade classroom, he was also able to be a substitute teacher. He did an amazing job when I was out of the classroom. He was pulled from time to time to assist in other classrooms. Bobby was exposed to a variety of experiences at Palmquist Elementary. He was flexible and willing to accept any experiences that came his way. Bobby will be a valuable asset at any school. It was a pleasure to work with Bobby Cross.

Sincerely,

Lisa Gill
Palmquist Elementary
Fifth Grade Teacher
